

CURRICULUM VITAE

PERSONAL DETAILS

NAME: NJUGUNA NIMROD NGUGI

EMAIL ADDRESS: nimngugi337@gmail.com

POSTAL ADDRESS:

MOBILE PHONE NUMBER: 0701102170 / 0739137955

DATE OF BIRTH: 6th May, 2005

MARITAL STATUS: Not Married

NATIONALITY: Kenyan

LANGUAGES SPOKEN: English, Kiswahili

CAREER OBJECTIVE:

To be a prominent web app and mobile app developer, to create, maintain and upgrade software and apps using the latest technology.

SUMMARY:

I am an IT student from Zetech University. I have developed some websites, progressive web apps in the time I have been in school.

TECHNICAL SKILLS:

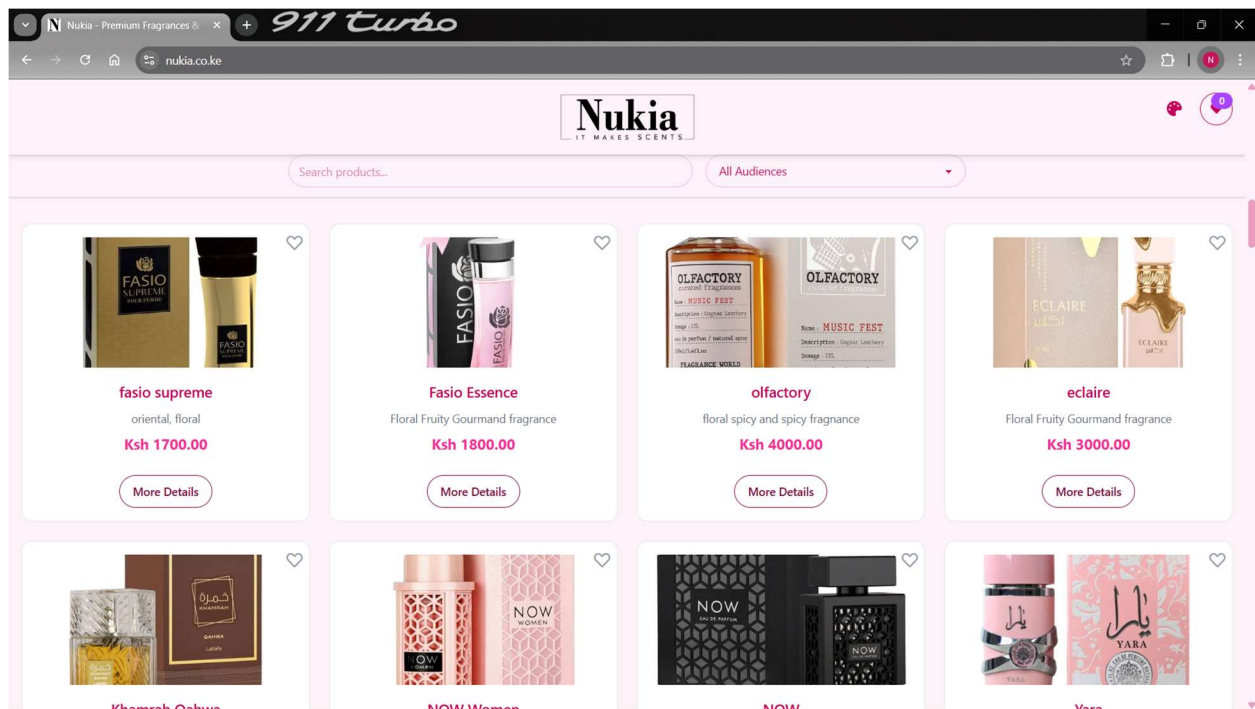

Programming & Frameworks: HTML, CSS, JavaScript, PHP, MySQL, Next.js, Java (Spring Boot), Tailwind CSS, DaisyUI

Soft Skills: Strong management and organizational abilities, adaptability to diverse environments, decent work ethic, collaborative team player.

PROJECTS:

Nukia Fragrance Website (<https://nukia.co.ke>)

Highlights varied brands of fragrances, uses whatsapp API for customer and owner interaction. Developed using HTML, Tailwind CSS and Daisy UI, PHP, Javascript and MySQL

Digital Inspection Tracker System

The system is used to track down different company's vehicles once they pull in for their inspections. Use of a QR code for each vehicle which belongs to specific companies.

It has different dashboards:

The administrator's dashboard: <https://infotrax.project.smartmodular.africa/admin/login.php>

The company's dashboard: <https://infotrax.project.smartmodular.africa/company/login.php>

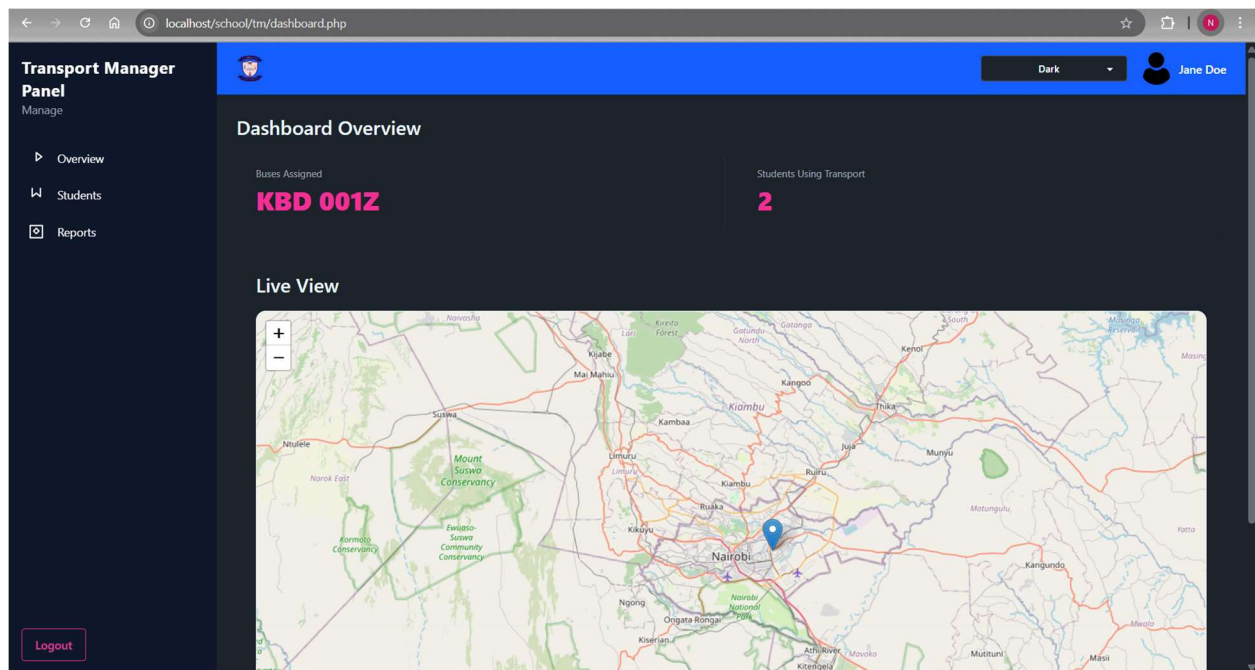

The inspector's dashboard: <https://infotrax.project.smartmodular.africa/inspector/login.php>

Developed using HTML, Bootstrap CSS, PHP, Javascript and MySQL. Encrypted one must have login credentials to interact with the site.

Other projects under construction

A digital school transport system management system

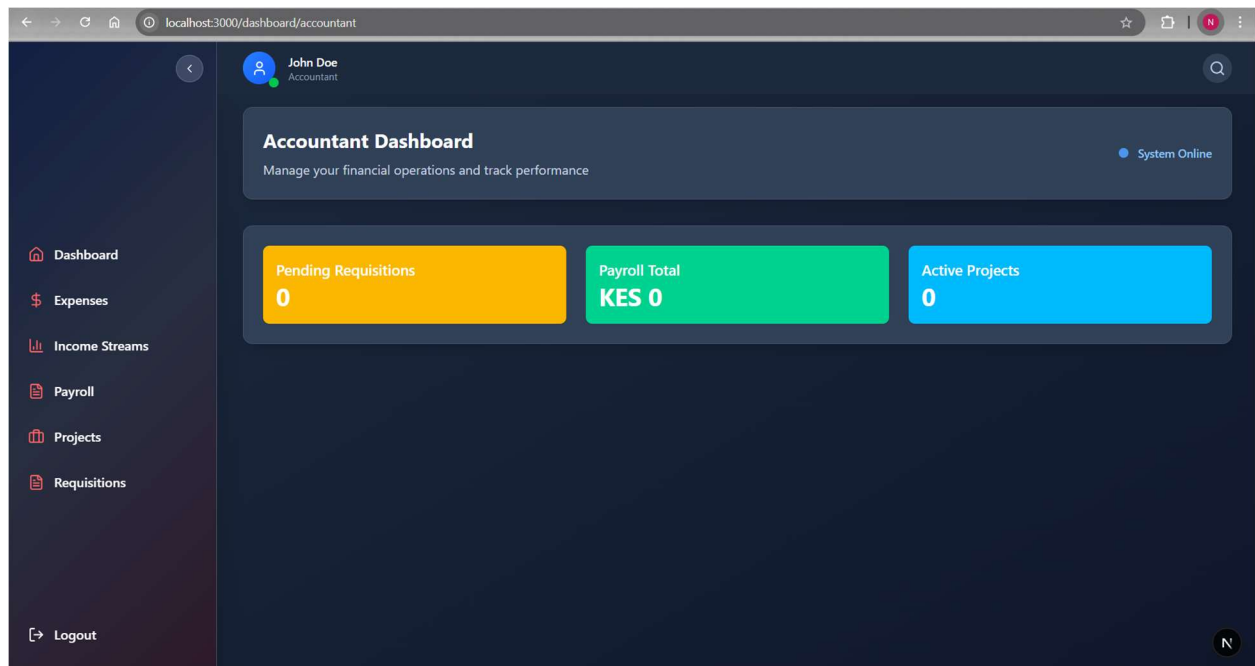

For ensuring children's safety in the school's transport sector. Being developed using HTML, PHP, Javascript, MySQL, Tailwind CSS and DaisyUI.

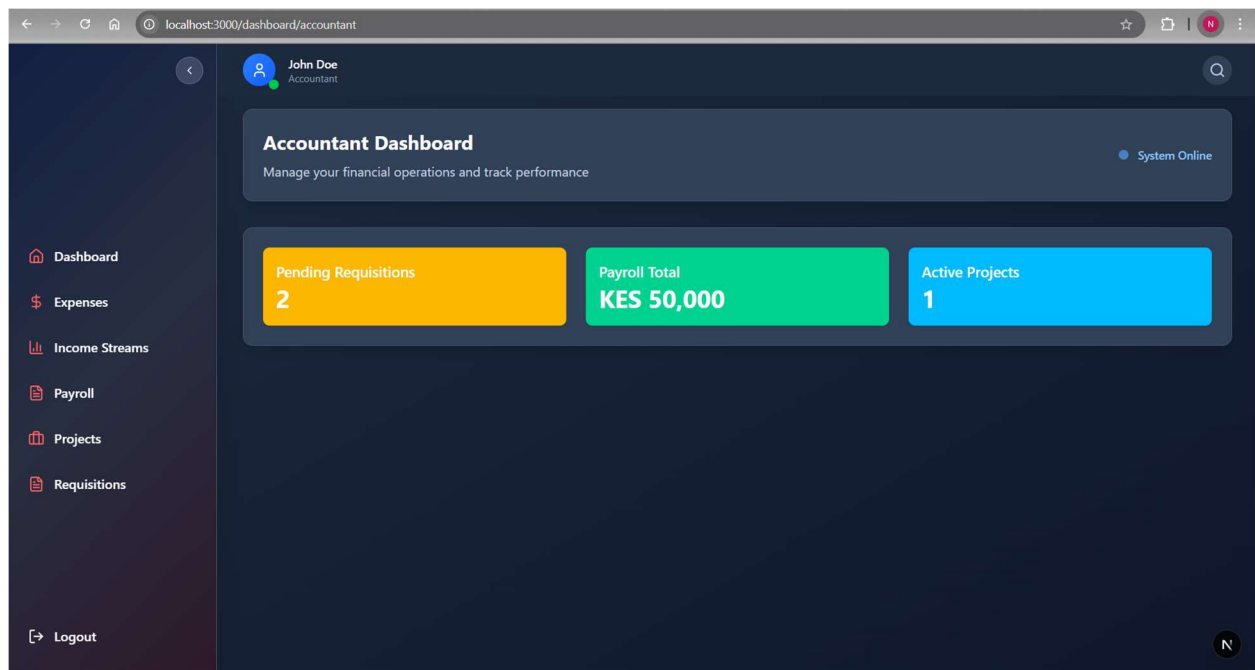

A digital church management system

Volunteered to develop system for PCEA Umoja church and currently looking for an attachment to sharpen my systems development, deployment and management skills.

Being developed by NextJS, Java (Spring Boot), MySQL, Tailwind CSS and Daisy UI.

TO WHOM IT MAY CONCERN

Dear Sir/ Madam,

RE: REQUEST FOR ATTACHMENT- NIMROD NGUGI NJUGUNA (DIT-02-0086/2024)

The above named is a student of Zetech University in the Department of Information Technology. The student has expressed interest in carrying out industrial attachment in your esteemed organization for a period of three months.

Industrial attachment is carried out in partial fulfillment of the requirements of Diploma in Information Technology that the student pursues. The aim of the attachment is to impact the student with practical skills and industrial experience in the following areas: Networking, software development, written and spoken communication, systems configurations and maintenance, help desk operations, customer care, and systems administration.

It is with confidence that I endorse the above named. Any assistance you accord our student will be highly appreciated.

Yours Faithfully,

David Kanyi
Head, ICT and Engineering Department
Zetech University
